DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121.
 - I. Claims 1-20, drawn to a method and system of collaborative browsing for a computer network having network servers hosting a plurality of network sites, classified in class 709, subclasses 204 and 227.
 - II. Claims 21-28, drawn to a main server holding a SimulWorld, classified in class 709, subclass 203.
2. The inventions are distinct, each from one another because of the following reasons: Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as in a method where the main server holds a SimulWorld (as set forth in invention II). See MPEP § 806.05(d).
3. A telephone call was made to Applicant's attorney on Wednesday, April 28, 2004 to request an oral election to the above restriction requirement, but did not result in an election being made.
4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement may be traversed (37 CFR 1.143).
